Travelling the South

In 2008 I made a trip to Antarctica. An experience which made a deep impression on me and which I still consider as one of the most beautiful experiences of my life. During the travel I wrote 7 compositions, with the purpose to create lesson material for jazz & pop accordion. All pieces are arranged for 2 (or 3) accordions, while 1 voice plays the melody and the second voice the accompaniment. The accompaniment can be splitted into a bass and chord part, when you prefer to play with 3 players. The accompaniment also can played on piano and the melodies on many different instruments, if you like.

The Antarctic

A wish for ages, an experience where I could only dream of...being on Earth's southernmost continent was breathtaking, extremely serene and exciting at the same time. Being there made my thoughts clear and made me compose very efficiently. Departed from Ushuaia, southern Argentina, the first piece had to be a milonga, tango based tune.
